### Objectives of 2<sup>nd</sup> JADECARE Stakeholder Forum

**JADECARE** (Joint Action on implementation of Digitally Enabled integrated person-centred **CARE**) will contribute to innovative, efficient and sustainable health systems through providing expertise to assist European countries in undertaking health system reforms. It will enable national authorities to benefit from efficient solutions in digitally enabled integrated person-centred care. The main objectives are to reinforce the capacity of health authorities to successfully address important aspects of health system transformation, in particular the transition to digitally-enabled, integrated, person-centred care and to support best practice transfer from systems of “early adopters” to the ones of the “next adopters”. This Joint action involves the Competent Authorities of 16 Member States and 29 Affiliated Entities.

**The Stakeholder Forums of JADECARE are intended to facilitate the exchange of experience and productive networking between the organizations participating in JADECARE and relevant Stakeholders.**

To this mean, external Stakeholders, including health system representatives, researchers and academia interested in collaborating with the JA are encouraged to discuss the current status and achievements of JADE-CARE, emerging problems, but also further ideas, solutions and networking possibilities. Also, key health care industries/developers are invited to contribute on how to enhance competitiveness and economic growth opportunities of EU industry.

The Topic of this years’ virtual JADECARE Stakeholder Forum is:

### “Implementation of digitally enabled integrated person-centred care – Roll out and Learnings“

This years’ Stakeholder Forum objectives are to:

- present the current status and achievements of JADECARE and share the practical experience, insights and learnings of Next Adopter implementers transferring best practice examples of digitally-enabled person-centred care into local good practices
- explore what Stakeholders need and how Stakeholders can be invited to use digital tools to enhance integrated patient centred care and to increase the impact of the achieved JADECARE implementation and transformation results
- discuss challenges and new developments in Europe for greater integration of health and social care services and how they can be supported by digital solutions

#### JADECARE original Good Practices (oGP):

- Basque Health Strategy in Ageing and Chronicity: Integrated Care (Basque Country)
- Catalan open innovation hub on ICT-supported integrated care services for chronic patients (Catalonia)
- The OptiMedis Model of Population-based integrated care (Germany)
- Digital roadmap towards an integrated health care sector (Region South Denmark, RSD)

## AGENDA of 2<sup>nd</sup> JADECARE Stakeholder Forum

| Agenda Items  | Time         |                                |  |
|---|--------------|--------------------------------|--|
| <b>Arrival and Registration on-site</b>   | 12:00-13:00  |                                |  |
| <b>Welcome and opening</b>  | 13:00-13:10  | 10'                            | Kai Schnackenberg, Ministry of Labour, Health, Social, Family Affairs and Integration, ( <i>BAGSFI</i> ) Hamburg, Germany<br>Moderator: Dr. Martina Rimmele ( <i>LGL</i> )   |
| <b>Expert speaker presentation</b>  |              |                                |  |
| "Prerequisites for person-centred digital health applications to support integrated care"   | 13: 10-13:40 | 30'                            | Prof. Viktoria Stein ( <i>IFIC</i> )   |
| Discussion  | 13:40–13:45  | 5'                             |  |
| <b>JADECARE –the Joint Action</b>   |              |                                |  |
| General presentation of JADECARE (Status, implementations overview, achievements)   | 13:45-13:55  | 10'                            | Ane Fullaondo ( <i>Kronikgune Institute for Health Services Research, KG, Spain</i> )  |
| Local Good Practices/Local Action Plans implemented by Next Adopters (NAs): sharing the practical experience, insights and learnings of NA implementers   |              | 15'<br>each                    |  |
| NA implementing features of oGP Basque country  | 14:00-14:15  |                                | Agenzia Regionale Sanitaria Toscana<br>Agenzia Regionale Sanitaria Marche region   |
